EDUCATION

TRAKYA UNIVERSITY

Computer Programming

2016-2020

ACUNMEDYA AKADEM  - 2024

- Gained fundamental skills in C# and .NET.
- Developed experience in creating Web APIs using ASP.NET Core.

CERTIFICATION

BTK AKADEM  - 2024

- C# Certification - BTK- Academy (2024)
- Object Oriented Programming with Applications- BTK- Academy (2024)
- Asp.Net Core Web API - BTK- Academy (2024)

STOREWAY E-COMMERCE APPLICATION

StoreWay is a web application that offers modern e-commerce functionality. This project is a fully-featured e-commerce platform that includes product and category management, user authorization, and order processes.

FEATURES

- Product Management: Adding, updating, deleting, and listing products
- Category Management: Flexible category structure with an infinite subcategory system
- User Authorization: JWT-based user authentication and authorization
- Order Management: Creating, updating, and viewing order details
- Swagger Integration: Swashbuckle support for API documentation

CAREER OBJECTIVE

As a software developer dedicated to mastering .NET technologies, I am focused on developing robust backend solutions using ASP.NET Core. Through my work on projects such as StoreWay, I gained hands-on experience in building scalable e-commerce platforms. My goal is to continue to develop my .NET and C# skills by focusing on developing innovative web applications that leverage the power of modern technologies such as Clean Architecture, Web API and MySQL.

TECHNICAL SKILLS

- Programming Languages: C#, .NET Core
- Web Technologies: ASP.NET Core, Web API
- Database: MSSQL, SQLite, MySQL
- Version Control: Git, GitHub
- Others: Basic OOP knowledge, Clean Architecture, Swagger integration, Code First, Database First, Entity Framework

LANGUAGES

- Turkish: Native
- English: Elementary
